ACADEMIND

ChatGPT vs Bard vs Bing

ChatGPT	Google Bard	Microsoft Bing
Free to use (with OpenAI account) but the best model requires “ChatGPT Plus”	Free to use with Google account	Free to use with Microsoft account, also integrated into Microsoft Edge browser
Results are generated step-by-step (and take some time)	Results are generated in one single step & pretty quickly	Results are generated step-by-step (and take some time)
No web search results (will be added via plugins)	Incorporates web search results	Incorporates web search results
GPT-4 (ChatGPT Plus) often produces great results	Results are good but not always awesome	Results depend on chosen mode & seem to be slightly worse than ChatGPT’s results
