Dear Evelyn,

I hope you're doing well, and excited for your sweet 16 birthday next month.

You should celebrate this special occasion with style, and throw a grand party and enjoy with your friends and family. I would recommend you to held a vampire themed party, as it is very popular among teenagers.

Firstly, you need a nice spot for the event and, I know a great place where you can organize the event. It is located by the river, and has a nice lighting arrangement for vampire themes. It also provides wide range of delicious catering services.

Secondly, the music plays an important role in setting up the mood, so I would suggest you to book a live band that would play songs according to our theme. I would advice you to book Dead Man Fall, they are available on your birthday as I have confirmed with them.

I hope you will have a memorable birthday. I hope my advice would be of use to you.

Yours sincerely,

(You only gave one sentence that actually talks about the controlling idea of this point "theme")

Dear Evelyn,

I hope you're doing well, and are excited for your sweet 16 birthday next month. You should celebrate this special occasion with style, and throw a grand party to enjoy with your friends and family.

Starting with a specific concept, I would recommend that you to hold a vampire themed party, as they are very popular among teenagers. This darkly popular theme will absolutely guarantee that everyone will have a blast because today's youth die for costume centered parties.

After considering the theme, you should definitely think about a nice spot for the event. I know a great place where you can organize the event; it is located by the river, and has a nice lighting arrangement for vampire themes. As an added bonus, the site also provides a wide range of delicious catering services that connect to a ghastly party theme.

With theme and location out of the way, let's talk about musical entertainment, which you know I am head over heels about since it plays an important role in setting the party mood. I would suggest that you book legendary theme party band Dead Man Fall, as they are available on your birthday, and will wear vampire outfits.

With these suggestions, I know you will have the party of the year!.

Yours sincerely,

Johnny
