

Lecture 29: This One Personal Trade Secret Generates 100 Downloads A Day!

A secret super place for traffic is Stumble-upon's paid discovery. Let me explain, with paid discovery, you just pay for the actual viewing of your landing page which is why it's super urgent to have a website for your app and at prices starting at only \$0.05 cents per visitor. You'll save so much money here versus you using Google ad words or Facebook ads.

This way you can get an extra couple of hundred visitors every day on a little money. As long as your app is decent now, you can expect a solid 100 downloads each and every day! Be sure to check the Recommended Link below. And I'll see you in the next lecture.
